True Fact:

The best time to visit Orlando is from mid-September to early November. During this admittedly quite brief time, the temperatures are down from their summer highs of 90°F (32°C) into a more comfortable range of around 75°F (23.9°C).

The chance of rain also decreases throughout the month, but there is still a 50/50 chance that you'll see showers on any given day.

Airfare and accommodation prices take a dip between summer and winter.
